VeriLite™ Scraper Assembly

**Overview**

**Applications**
The patent pending VeriLite scraper assembly provides a compact and unique scraper that offers excellent cleaning results to improve uptime and reduce maintenance costs in a variety of industrial roll and belt cleaning applications.

**Features**
- Light-weight aerospace alloy construction
- Compact design fits into tight locations
- Suitable for wet and mildly corrosive duty up to 400° F (204° C)
- Large selection of blade materials for any application
- Self-pivoting scraper blade holder

**Benefits**
- Precise blade load adjustment
- Can be safely operated from remote location
- Quick blade change design only takes seconds to change a blade
- Low maintenance

**Kadant experience**
Kadant has been a global market leader in doctoring systems and technologies for more than 80 years. During that time, our doctor assemblies and diverse family of carbon fiber, composite, and metal doctor blades have earned a reputation for high precision, efficiency, and reliability. Our field engineers are trained to identify roll doctoring problems and provide cost-effective solutions that provide the user the opportunity to increase efficiency and productivity.
