Dryer Inspections and Nondestructive Testing

Kadant Johnson Services offers dryer inspections and nondestructive testing (NDT) in both paper and industrial applications per TAPPI TIP 0402-16. Kadant Johnson Services has certified personnel with the specialized knowledge and experience for safe, reliable, and expert testing.

Maintaining your steam and condensate equipment requires knowledge and experience. Kadant Johnson has the specialized knowledge and experience you need to ensure that this equipment is maintained to the highest standard.

Kadant Johnson Services also provides dryer equipment installation and repair, along with dryer exterior surface cleaning.

From routine repairs to major dryer section rebuilds, if your plans include inspecting, repairing, or installing dryer equipment, include Kadant Johnson Services in your planning.
