Installation Instructions for DASH-1

STEP 1
Unbolt head & remove from joint. Insert horizontal pipe into drying cylinder. Install pressure plate over horizontal pipe.

STEP 2
Slide horizontal pipe with pressure plate onto joint. Tighten horizontal pipe into head.

STEP 3
Position syphon such that pick-up location points to 6 o’clock position.

STEP 4
Slide split wedges into place.

STEP 5
Tighten pressure plate over split wedges.

STEP 6
Reinstall head.

The Kadant Johnson Warranty
Kadant Johnson products are built to a high standard of quality. Performance is what you desire: that is what we provide. Kadant Johnson products are warranted against defects in materials and workmanship for a period of one year after date of shipment. It is expressly understood and agreed that the limit of Kadant Johnson’s liability shall, at Kadant Johnson’s sole option, be the repair or resupply of a like quantity of non-defective product.
