The OTS rotary union offers a solution for machinery that requires cooling on the drive side of the driven rolls or for rolls that cannot accept an axially mounted union for other reasons. This custom rotary union can be applied to water, hydraulic oil, or air applications.

**Features**
- Stainless steel, bronze, and aluminium construction
- Custom designed
- High and low speed versions
- Easy removal and field repair

**Benefits**
- Highly resistant to corrosion
- Application flexibility
- Decreased maintenance downtime
- Proven long-term performance
